# ANALYSIS OF THE MATURITY OF SCHOOL FEEDING PROGRAMMES - AMPAE

MINISTRY OF  
EDUCATION

MINISTRY OF  
FOREIGN  
AFFAIRS

## **Main actions of the Brazil-FAO International Cooperation on School Feeding - 2024:**

- Regional Agenda for School Feeding in LAC
- Dialogue on National School Feeding Policy
- Adhesion of the countries to the RAES - Latin America and the Caribbean
- SFP Maturity Analysis

**Diagnostic reading of the reality of the programmes as a whole:**

### **AMPAE: ANALYSIS OF THE MATURITY OF SCHOOL FEEDING PROGRAMMES**

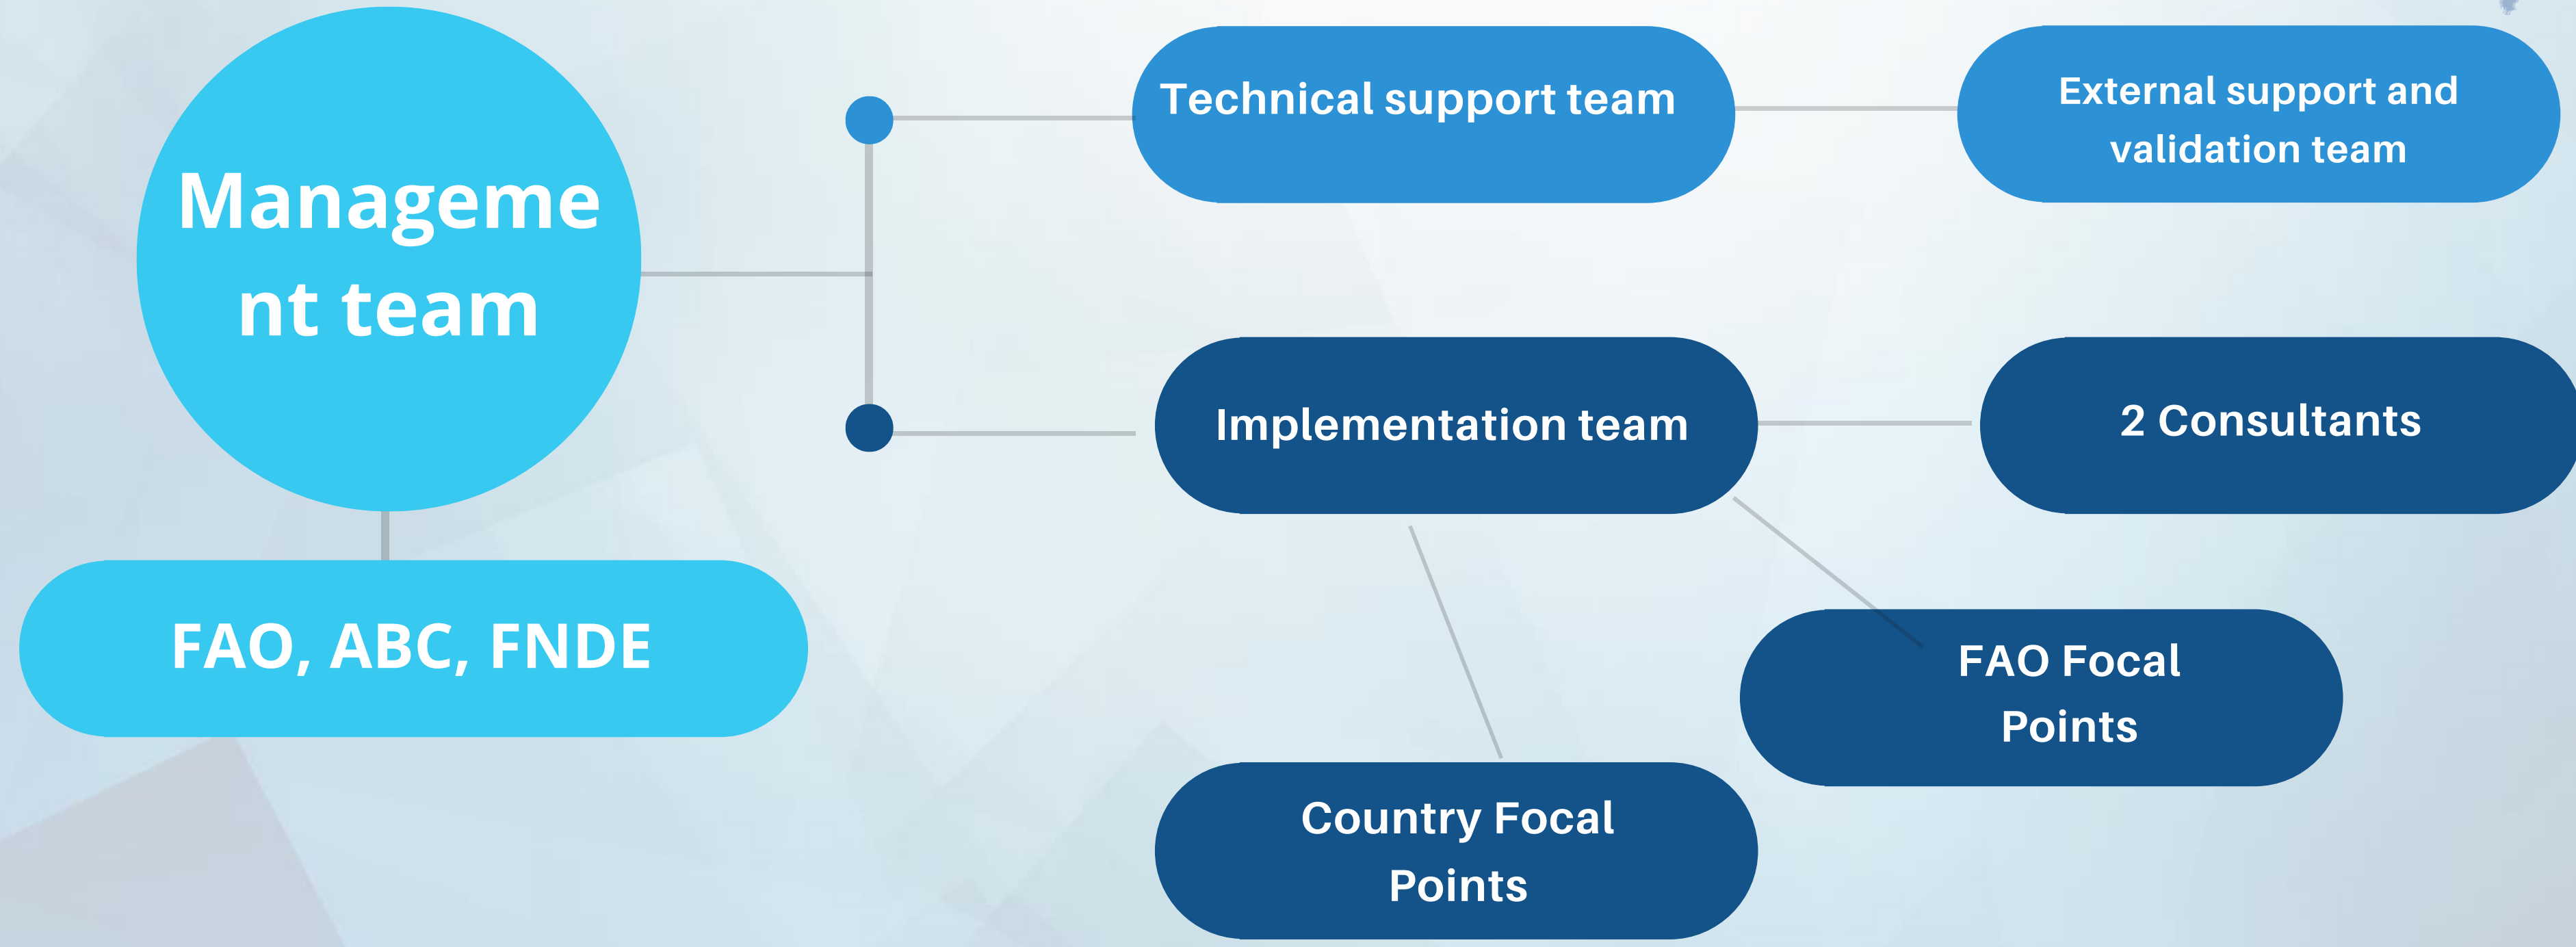

- It is an instrument for diagnosis and detailed analysis of the SFP development processes in each participating RAES/LAC country.
- It will take into account the specificities of the national governments of the countries and will respect the sovereignty of each country.

## Objectives:

- Strengthen the collaborative construction of the regional school feeding agenda in the region.
- Demonstrate progress and achievements
- Identify issues that need further attention and new actions at national and regional levels.
- Guide the technical support activities of the RAES.

# Organization chart

**All the work will be done under the guidance and technical coordination of the Brazil-FAO International Cooperation team.**

**Expected product:**

**Document with evidence of the progress and challenges of school feeding programmes in LAC.**

**Countries will be able to participate:**

- Participate in the technical meetings promoted for the implementation of this activity.
- Designate two focal points of contact for this activity from the ministry or secretariat responsible for the SFP.
- Answer the questionnaires and forms in conjunction with the AMPAE consultancy.
- Approve and validate the data collected
- Validate the final report of the AMPAE.

# Writing and organizing the document
